Carpathian Biosphere Reserve

The International Scientific Conference

“Problems of Mountain Ecosystem Conservation and Sustainable Use of Biological Resources in the Carpathians”

First Circular

In the framework of its 50th Anniversary celebration, the Carpathian Biosphere Reserve is going to host the International Scientific Conference “Problems of Mountain Ecosystem Conservation and Sustainable Use of Biological Resources in the Carpathians” on **October 22-26, 2018**, in Rakhiv, Zakarpattia region, Ukraine.

The following issues are proposed for discussion:

1. Historical aspects of nature management, and of protected areas and ecological network formation.
2. Research and monitoring of biotic and abiotic environment as a basis for conservation and sustainable use of natural ecosystems.
3. The role of the protected area system in research and conservation of a nature-resource potential and in implementation of the sustainable development concept.
4. Eco-education activities and problems of population's environmental consciousness shaping.
5. Problems of sustainable forest management.
6. Environmental aspects of sustainable tourism development.
7. Development and implementation of ecological-economic mechanisms for sustainable natural resources management.
8. Environmental consequences of subsurface resources management within protected and recreation areas.
9. International aspects of the ecological research and nature protection activities.

The conference provides options for the plenary, oral presentation and poster session.
